

Quintessence Collection

Inspo:

Too often we are distracted and distant from our organic surroundings, caught up in our assiduous lives. 'Quintessence' explores a refined extract of nature. Each look is inspired by the earth's natural formations and flora, in their delicacy and in their splendour. This collection provokes awareness and a connection to our environment, encouraging a balance between our fast paced lives and gratitude for our surroundings. Quintessence celebrates the intricacies of nature... and the richness they can bring to our very existence.
