

## **Hairdressers Speak! - Danson Chea | 99 Percent Hair Studio**

Danson Chea

99 Percent Hair Studio

How long have you been a hairstylist and why did you choose this line?

I've been in the hairdressing industry for 13 years. Before I was a hairdresser, I was actually a renovation worker. Every time I went to the hair salon with my friends, I saw hairdressers wearing fashionable clothes and I wanted to be like them. They don't have to work under the sun, and they can wear beautiful clothes in the air-conditioned room every day. I have been very interested in the beauty industry, so I chose to enter the hairdressing industry. In 2006, I signed up for the six to nine month hairdressing course at KL APT Academy, and started my hairdressing career! I'm very blessed that I didn't give up this industry and insisted on my choice.

What are your stronger skills?

My strengths are dyeing and perming, such as: Balayage Colour, Pixel Dye, Korean and Japanese Mix Perm and so on.

What do you love most about being a hairdresser?

I love to see the satisfaction on my clients' faces with the hairstyle I created, and they told me that they are happy to meet me because I can understand them and help them create their own personal hair style.

Tell us something you love about the hair industry.

Because the hairdressing industry is an interesting job, it not only improved our thinking ability and skills, but also allowed us to get to know people from different industries and gain new knowledge.
