How long have you been a hairstylist and why did you choose this line?

I have been in this industry for more than 24 years; I started when I was 15 years old. I chose to be a hairstylist because of passion.

What are your stronger skills?

The fundamentals of hairdressing and the experiences that I have gained throughout the years. Also, solving problems effortlessly because I already understand the flow of everything.

What do you love most about being a hairdresser?

What I love the most is when you have an imagination of something in your head and you're able to showcase it by your hand because it's not just a figment of one's imagination.

Tell us something you love about the hair industry.

Hairdressing consists of arts and crafts, simply by creating with our hands, and that is why every hairstylist is unique in their own way.
