

VITALITY'S RE-INTEGRA Hair Strengthening Treatment

Stress, wrong diet, smog, aggressive hair products and an unsuitable haircare regime can damage and weaken hair. Hence, nutrients must be properly rebalanced.

Vitality's RE-INTEGRA System reconstructs, restructures and repairs hair that is damaged and weakened. The active ingredients are Phoenix Dactylifera (hydrating, antioxidant and remineralising) and Vitacell-Repair (stimulates the keratinisation process in the follicle, for deep-down reconstruction).

In-salon 3-step treatment with 2 home care products to recommend to clients for maintenance.
