

## Kimage Cove

With more than 20 years of experience in both high fashion and everyday-wearable hair, Kimage Cove aims to refresh, renew and revitalise both the hair and the soul. They offer customised hair services while also ensuring the customers' comfort.

Kimage Cove is designed to make the most of the open space and natural light. The interior is crafted to bring the garden of the city indoors, with greenery that soothes and help the customers relax without overwhelming them. Customers undergoing lengthy hair sessions can kick back and relax at the cosy lounge — The Retreat.

The Preview is where customers discuss and consult with their Kimage advisors. The Suite offers premium experiences delivered by Kimage's master stylists. Gentlemen can get their cut and colour in The Bunker and children have their own space to play while their parents get their hair done.

"While bringing out the best in every customer through personalised hairstyles remains the core of Kimage, we also want to create a comfortable space for customers to relax in. Kimage Cove is an accessible, private oasis that customers can escape to, away from a world of emails and spreadsheets." — Ms Monica Tan, Director of Kimage
