

Ken@Hairstage

Ken@Hairstage was founded by Ken B almost a decade ago in 2010. Ken decided to start his own journey with his very own salon after a fruitful two-year learning experience in a business partnership.

Despite the interior being a timeless and simple design, the salon sought to bring out a pleasant and comfortable ambience for the customers. The salon has a nice mix between the industrial and cafe concept. Cosy space, comfortable lighting, peaceful music, soothing colour theme and display plants were all used to bring some liveliness into the salon.

There are also some elements from Ken's previous two salons that have been inculcated into Ken@Hairstage — such as furniture and lighting. These factors not only made the salon unique, but it also carries the salon's history and legacy as the present salon continues to advance.

No matter what they do, Ken@Hairstage keeps every service they provide on a professional standard. They do their best to provide solutions and bring out the hidden beauty of their clients.
