

## Think Colour Cream

The Baobab leaves extract gives think Colour Cream treating properties, resulting in protected, hydrated, shiny and smooth-to-touch hair. It ensures pure, vivid and long-lasting colours while also improving and restoring the hair with 100% white coverage. Other oils included are Argan Oil, Shea Oil, Grape Seed Oil and Lemon extract to ensure great moisturising, nourishing and polishing power.

\*The Think treatment does not require the addition of the base nuances (natural). You can use fantasy nuances as PURE, getting results of the 100% white hair coverage.
