

GET THE LOOK - The Rainbow Look with Sharon Malcolm

1. Long hair is straightened, then small sections were taken and a knot tied halfway down the length and towards the ends.
2. Place iron over each knot and clamp to secure. Do this all around the head.
3. Then, take coloured eyeshadow and colour each knot with a different shade.
4. Take sections freehand and pull them into shapes, leaving the ends free for added softness.
5. Place the sections across the top of the head to create a halo effect around the face and to show off the knots.
