

VIBES - TONI&GUY Perth Central

The hair is graphic, strong, defined and elegant in appearance. Texture plays an integral part in this collection. Inspired by Alexander McQueen's lace stitching techniques into fabrics, Jude drew inspiration from this technique into the hair prep with the use of crochet needles to weave hair through hair. Building this crafted texture technique that is exaggerated against the shapes of the hair and its natural movement adds a sense of playfulness and individuality to each look.
