

## JOSE URRUTIA - CIRCLE Collection

**Circle** is inspired by the gradient colors of nature, skies at sunset, waves crashing or the seaweed dancing in the sea.

The chromatic richness that surrounds us, with shades that intermingle in an unusual way, although tremendously beautiful and that create a fascination among those who observe it.

On hair, textures are combined with a strong preeminence of waves and curls that acquire even more strength with the application of the different tones. Hair simulates the softness with which algae sway with currents, the fluffiness of the most exotic bird feathers and the palette of colors that appears in the sky when the daylight fades.
